HYDREAUBAR™

—The smart bottling station

HYDREAUBAR VALUE BENEFITS

ENVIRONMENTAL

- Lower carbon footprint
- Less energy usage (pure water)
- Zero transport costs
- 100% reusable bottles
- Zero waste / disposal costs
- Sustainably sourced
- 95% lower in carbon footprint than bottled waters*

ENHANCED SAVINGS FROM EAU VATION PURIFICATION EQUIPMENT

- Lower cost, increased margins
- Lower maintenance costs on machines
- Longer life for machines
- No need for water softeners / no salt
- Glassware lasts longer
- Less detergent

HYDREAUBAR FEATURES

WASH STATION

- Sterilise and fill multiple bottles at a time.
- * Elimination of microbial organisms on internal surfaces (not achieved from washing alone)
- Zero waste of water using EauVation's unique UF03 system.

INTEGRATION

The use of EauVation purification enables kitchens to be fully integrated with EauVation eliminating scale without the use of salt or individual filters delivering fantastic benefits.

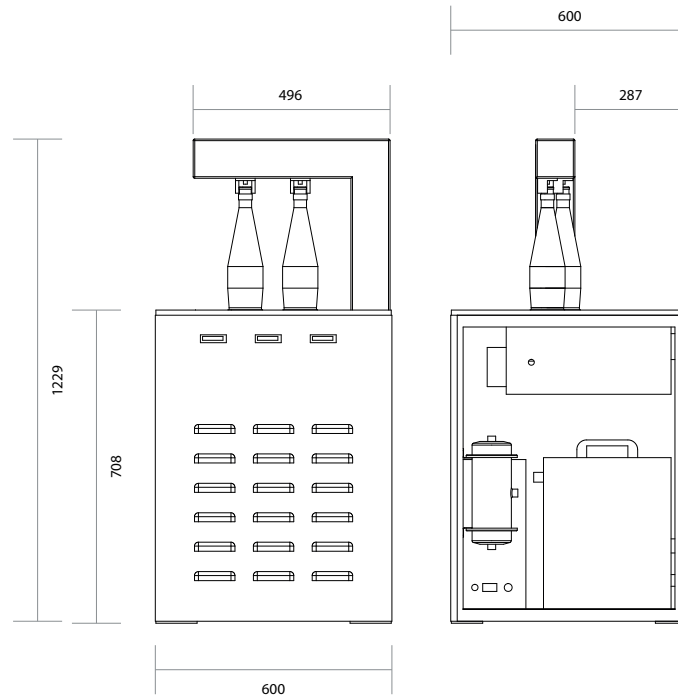

FILL STATION

- Fill multiple bottles at a time automatically
- Auto shut off
- Individual bottle recognition to comply with weights and measures regulations
- Choice of two waters: chilled and sparkling

* HydreauBar has been assessed for its carbon footprint by Best Foot Forward, a report commissioned by The House of Commons. This independent assessment rated HydreauBar 95% lower in its carbon footprint than all bottled water brands.

ANNUAL SERVICE

Servicing and replacing the exhausted components every 12 months keeps your system fully optimised so you'll enjoy the great taste and benefits of pure water.

EXTENDED WARRANTY

Simply service your system annually to receive free extended warranty for a further 12 months (a fully comprehensive service plan option is then available).

It is not recommended customers install or carry out any repairs to their system.
